EXPERIENCE

SAP / SPM Solution Support Engineer

SEP 2023 - CURRENT JOB

As a SAP Product Support Engineer specializing in SPM, I provide technical expertise and support to customers. My key responsibilities include diagnosing and resolving complex technical issues.

- Assisted in troubleshooting support issues and communicated with clients to understand their needs and challenges.
- Contributed to process documentation and the creation of Knowledge Base Articles (KBAs) that improved support efficiency.

Compass / Front End Developer

NOV 2021 - APRIL 2023

- Front-End Developer / I have gained experience developing website GUIs using HTML, CSS, SaaS, JavaScript , Oracle, React, Rest API's using some Git and code versioning. I'm also experienced with agile methodologies like Scrum and Kanban for effective collaboration and delivery of high-quality products.
- Programmer Internship / Website development training (HTML, CSS and JavaScript).

EDUCATION

2022-2027

APPLIED TECHNOLOGY | SOFTWARE DEVELOPMENT

Brigham Young University - Idaho

- As a bachelor's degree student in applied technology, I am acquiring essential skills for a career in software and web development, information technology, and related fields. My studies focus on programming, including front-end and back-end development, as well as database and systems administration, preparing me for real-world challenges in the tech industry.

2021-2022

PATHWAY CONNECT

Brigham Young University - Idaho

- Participating in Pathway Worldwide, a one-year, all-English program that prepared me for the job market and for studying at a foreign university. The program emphasizes developing skills such as a growth mindset, effective learning strategies, market awareness, mathematical reasoning, and improved communication through writing and speaking.
